Preface vii
Notations xi

Information retrieval for finite element literature 1

Chapter 1. Books on Finite Elements
1.1 Introduction 5
1.2 Textbooks on structural and solid mechanics 6
1.3 Textbooks on fluid mechanics 25
1.4 Books on fundamentals and mathematical aspects 27
1.5 Special interest books 37
1.6 Books on programming and finite element software 50

Chapter 2. Conference Proceedings on Finite Elements
2.1 Introduction 69
2.2 Structural and solid mechanics conferences 69
2.3 Fluid mechanics conferences 89
2.4 Other special interest conferences 95
2.5 Engineering software users conferences 98

Chapter 3. Other Readings—Books
3.1 Other books on structural and solid mechanics 111
3.2 Other books on fluid mechanics 124
3.3 Other special interest books 128

Chapter 4. Other Readings—Conference Proceedings
4.1 Introduction 145
4.2 Other structural and solid mechanics conferences 145
4.3 Other fluid mechanics conferences 169
4.4 Other special interest conferences 175

Chapter 5. Journals
5.1 Introduction 207
5.2 Journals for general interest on numerical methods 208
5.3 Special interest journals 231

Chapter 6. Abstracting Books and Journals
6.1 Introduction 269
6.2 Abstracts of books and journal papers 270
6.3 Abstracts of theses and dissertations 278
6.4 Abstracts of conference proceedings 279

0168-874X/90/$03.50 © 1990 – Elsevier Science Publishers B.V. (North-Holland)

Chapter 7. Databases
7.1 Introduction 283
7.2 Large general databases 284
7.3 Special purpose databases 286

Appendices
Introduction 293
A List of publishers with addresses 295
B List of finite element books and conference proceedings 301
C Other readings—list of books and conference proceedings 315
D List of meeting locations 327
E List of journals 331
F List of abstract journals 335
G List of databases 337

Indices
Introduction 341
Author/Editor index 343
Subject index 357
